

IMPORTANT SAFETY NOTES

1. Always wear eye protection and use a face mask.
2. **WARNING** Grinding and cutting generates dust. Most of the dusts generated when grinding or cutting are from materials being ground or cut. Excessive dust inhalation may effect the breathing function, or cause skin, lung or eye irritation. To avoid these risks always follow the rules set out in this leaflet. Wear goggles to protect the eyes and a face mask to prevent inhalation of dust.
3. Never exceed 3,600 RPM for the wheel
4. Handle and store discs in a careful manner.
5. Discs should always be at least 25 mm/1 " larger than the size of the metal washers supplied.
6. Never exceed the recommended speed
7. Fastening screws should not be over tightened.
8. Do not cut or grind materials not recommended for the Du-All Disc. If in doubt test on a scrap of material first.
9. Never force or jam the disc into the work.
10. Always use even and light pressure. Let the disc do the work.
11. The edge of the Du-All Disc is very sharp. Always handle with care.
12. Protective gloves should always be worn when using Du-All Discs.
13. Do not utilize the lock-on button on the Drill or Grinder.
14. Any item being shaped or cleaned should be secured in a vice or clamp and not held in the hands.

THE EDGE OF THE DU-ALL DISC IS VER SHARP THEREFORE ALWAYS HANDLE WITH CARE
